

ELATEVE

THE CREATION ERA — FERTILITY & POSTPARTUM

The Foundation Builder

You're recovering well — this is the moment to build sustainable habits, not just survive the season.

www.elateve.com

Your Tips & Tricks

- 01** Layer in a daily probiotic now — gut health compounds well before you need it to.
- 02** Protect one non-negotiable stretch of sleep, even 20 minutes, daily.
- 03** Build a simple support list (people you can actually call) before you need it.
- 04** Keep movement gentle and consistent rather than ambitious.
- 05** Journal weekly — tracking how you feel early makes changes easier to spot later.
- 06** Revisit this assessment each trimester or postpartum month — this stage moves fast.

Curated For You

Seed DS-01 Daily Synbiotic

Science-backed gut support for the long recovery arc.

Hatch Restore 3

Protects whatever sleep you do get.
