The Depletion Signal

Your body is sending clear signals. A few targeted supports now prevent this from becoming a deeper crash.

Your Tips & Tricks

- 01** Say the sentence out loud to someone: "I need more help than I'm asking for."
- 02** Add a weighted or pressure-based sleep aid for whatever sleep window you get.
- 03** Simplify meals — nutrient-dense and easy beats elaborate and abandoned.
- 04** Let one thing go this week. Just one. Notice how it feels.
- 05** Use scent (a diffuser, a candle) as a fast nervous-system reset between tasks.
- 06** Book one appointment focused only on you, not the baby — a massage, a check-up, anything.
