Your Tips & Tricks

- 01** This week, ask for real help — meals, night shifts, anything you can hand off.
- 02** Talk to your provider about postpartum mood support; depletion this deep deserves attention.
- 03** Protect sleep like it's medicine, because it is.
- 04** Lower the bar on everything non-essential for the next two weeks.
- 05** Keep gut and nutrient support simple and consistent (probiotic, easy protein, hydration).
- 06** Revisit this assessment in two weeks — deep depletion should trend upward with support, not stay flat.
