Your Tips & Tricks

- 01** Add one structural home upgrade this month — an air purifier, a better sleep setup, or similar.
- 02** Build gut health support into your daily routine (probiotic, fibre-rich meals).
- 03** Bring consistency to movement — even modest, regular strength work beats occasional intense effort.
- 04** Reconnect with a sense of purpose — a project, a class, a commitment to look forward to.
- 05** Get a full check-up if it's been a while — bone density, cardiovascular, cognitive baseline.
- 06** Pick one thing from this list and commit to 30 days before adding the next.
