

The Steady Start

She's adjusting well. This is the perfect window to build light-touch, lifelong habits before things get more turbulent.

YOUR TIPS & TRICKS

- 01** Keep a simple cycle calendar together — normalize tracking early, without making it clinical.
- 02** Introduce fragrance-free, gentle skincare now, before breakouts start.
- 03** Protect her sleep window — no screens 30 minutes before bed.
- 04** Normalize movement as fun, not fitness — dance, walks, bike rides all count.
- 05** Keep the door open with low-pressure check-ins, not one big "talk."
- 06** Revisit this assessment every few months — bodies change fast at this age.

YOUR DAILY MANTRAS

- "My body is learning, not broken."*
- "I am allowed to feel and grow at the same time."*
- "Change is happening for me, not to me."*
- "I trust the process, even when I don't understand it."*
- "I am becoming exactly who I'm meant to be."*
- "My feelings are valid, even the big ones."*

DID YOU KNOW

The hormone surges of puberty are preparing your brain for one of its biggest growth spurts since infancy — this is a season of becoming, not just changing.
